

**#gettoknOE Justin!**

Technician Justin Bruns wants anyone joining One Energy to know, “You’re not gonna know everything right away, so just try to be patient and don’t be afraid to ask for help. If you give an effort, people are always willing to help.”

“We don’t know if the baby’s gonna be a boy or a girl. It was kind of a pain in the butt when we were trying to pick out clothes. Other than that, it’s gonna be cool to be a surprise. I think we’re ready. I hope.

Coldwater, Ohio is where I was born, raised, and it’s where I still live. Football was always my favorite sport. We won the state championship my senior year of high school, 28-27. The other team scored at the last minute and they went to kick the extra point, our linemen blocked it, and we won. It was pretty cool to win my last game ever.

I got to know everyone at One Energy pretty well when I worked as an electrician for 8 years. One day over at Valfilm, [CEO] Jereme told me to hop in the truck to discuss a few things, and he ended up giving me an offer. My favorite part of working at One Energy is all the different activity. I’m trying to get to know everything about the turbine, and there’s a lot to learn. I think it’s pretty cool that I still get to do electrical work, but kinda learn a whole new aspect of it.”
